

GT TOUR

STEEL STRAP

The GT TOUR collection adopts the codes of the 'Classic' car race. The matte black dial and the orange minute hand are inspired by the contrast of these two colours on a racing car meter, allowing maximum legibility. Worn with a stainless-steel bracelet, the GT TOUR timepiece is a tribute to the golden age of the car race. Powered by the new caliber RSV-240, a proprietary patented three-complication module coupled to a manufacture movement (LJP-G100 base), combining retrograde minute, jumping hour and a 56-Hour power reserve. Delivered in a prestigious wooden box with an additional NATO strap.
