HYDROSPHERE AIR GAUGE

STEEL CASE & WHITE DIAL

Imminent immersion - Dive time: 45 minutes, depth: 25 meters. The pressure is rising. Desires for exploration and challenge infuse the senses and mind. Stay focused, while checking the equipment: cylinders, oxygen, regulator, stabilizer... Sealed on the wrist, the HYDROSPHERE watch bearsthe effigy of scuba diving manometers, the first survival instruments for divers. An unidirectional ceramic rotating bezel with double graduation, helium valve, a 316L stainless steel case watertight up to 250m, a super-Luminova white dial, a power indicator, mounted on stainless steel bracelet with an extension system, the HYDROSPHERE watch asserts its uniqueness with a single hand on the dial for a radical reading of the time. Powedered by a swiss-made self-winding mechanical movement, combining a patented proprietary 124-pieces module on ETA2824 Caliber with a 37-hour power reserve. Delivered in a waterproof container with an additional rubber strap.
