ICONIC WATCH

TIEFENMESSER BRONZE

BRONZE CASE & LEATHER STRAP

Immersion is imminent. A submarine quietly folds into the unfathomable depths of the ocean, disappearing without trace from the surface and taking with it a world whose space is enclosed in heat and wetness... The Tiefenmesser Bronze takes its inspiration from the materials that feature so prominently in submarine equipment : the bronze and brass of a periscope. Bronze case mounted, blued steel hand on a vintage brown leather strap. Powered by the new caliber RSV-240, a proprietary patented three-complication module coupled to a manufacture movement (LJP-G100 base), combining retrograde minute, jumping hour and a 56-Hour power reserve. Delivered in a prestigious wooden box with an additional NATO strap.
