LIMITED EDITION

GT TOUR 371 SE

The GT Tour collection adopts the codes of the classic car race. The matte black dial and the orange minute single-hand are inspired by the contrast of these two colours as seen on a racing car meter, a speedometer or RPM counter, allowing maximum legibility. The GT Tour 371 SE is a more radical version with a black case and a sandblast finish on the dial, which recalls the coating of legendary cars racetracks. Worn with an automobile leather-style perforated black strap with orange stiching, the GT Tour 371 SE timepiece is a tribute to the golden age of the vintage automobile race. Powered by the new caliber RSV-240, a proprietary patented three-complication module coupled to a manufacture movement (LJP-G100 base), combining retrograde minute, jumping hour and a 56-Hour power reserve. Delivered in a prestigious wooden box with an additional NATO strap. Limited Edition 371 pieces.
