RESERVOIR X POPEYE MEXICO EXCLUSIVITY EL PALACIO DE HIERRO (MEXICO)

The new RESERVOIR x Popeye Mexico watch shows a true work of art, reflecting the themed design of Mexican history. The main character, Popeye, is represented, dressed in a gray vest, cartridge belts and the traditional "Mexican Hat". He holds with determination some pistols of the time, inspired by the brave Mexican adventurers of the 18th century. This character, along with the cacti, the town church and the mountains on the horizon, create a scene typical of the Mexican countryside that transports us to that time, duels in the sun and legends of the desert. The watch face has a unique way of displaying the time: Popeye's arm is a single hand as a retrograde minute, with jumping hours in the window at 6. Another notable element is the power reserve at the bottom of the face, with three interlocking circles that symbolize bullet impacts and the indicator hand that represents a red target. This watch is not just a device for telling time; It is a piece that transmits emotions of nostalgia and adventure. Powered by the caliber RSV-240, a proprietary patented three-complication module coupled to a manufacture movement (LJP-G100 base), combining retrograde minute, jumping hour and a 56-Hour power reserve. Each numbered model is presented in a white wooden box adorned with an image of "The Popeye Family" (© 2022 King Features Syndicate™ Hearst Holdings, Inc.), a special embroidery in honor of the comic strip Popeye. Limited Edition 50 pieces.
