

HEROES

2024 NOVELTY

390 FASTBACK X HEROES LIMITED EDITION

The 390 Fastback collection is inspired by the speedometer of the iconic 1967 American "Pony" car : a symbol of freedom as the first car of a young generation of Americans. The "390" referred to the V8 engine with a displacement of 6.4 liters, generating a power of 320 horsepower, already impressive for the time. The HEROES limited edition takes up the exclusive and authentic spirit of the French magazine to offer a unique timepiece. The black sandblasted dial takes up the codes of the track, the minute font being inspired by the typical numerals of "Pony" counters. A single black and red minute hand ventures towards a stylized red zone while the hours jump into the window at 6 o'clock. Everything is elegantly housed in a PVD-black stainless steel case. An open bottom reveals the symbolic raven of the HEROES brand. Powered by the new RESERVOIR RSV-240 caliber, an exclusive and patented Swissmade module, with three complications coupled to a manufacture movement (LJP-G100 base). It combines a single hand as a retrograde minute, a jumping hour and a 56-hour power reserve (not-show on the dial). The watch is mounted on a high-quality black leather strap, typical of the car seats, and delivered in a luxurious wooden box accompanied by a miniature model of the "Pony Car", Fastback version. Limited Edition 66 pieces
