

SONOMASTER CHRONOGRAPH VINTAGE

BI-RETROGRADE BLACK & BEIGE

RESERVOIR applies the measuring of sound to the measuring of time ! The two retrograde hands of the new RESERVOIR Sonomaster Chronograph faithfully reproduce the hands of power measurements or VU meters from analog stereo amplifiers. A tribute to the human quest for a 'pure' sound, a musical exploration full of audacity and intensity. This bi-retrograde (date and seconds at 120°) watch inaugurates the first chronograph model from RESERVOIR (central second, 30-minute counter at 12, hour counter at 6). The watch is powered by the new watchmaking caliber RSV-Bi120: a manufacture bi-retrograde chronograph movement, automatic mechanical winding, and column wheel (base LJP-L1C0).
