LIMITED EDITION

GT TOUR CARBON

SOLD OUT

The GT Tour collection adopts the codes of the classic car race. The matte black dial and the red minute single-hand are inspired by the contrast of these two colours as seen on a racing car meter, a speedometer or RPM counter, allowing maximum legibility. Worn with an automobile leather perforated black strap, the GT Tour Carbon timepiece is an even more radical version, with a carbon case and a sandblast finish on the dial, which recalls the coating of legendary cars racetrack. Powered by the new caliber RSV-240, a proprietary patented three-complication module coupled to a manufacture movement (LJP-G100 base), combining retrograde minute, jumping hour and a 56-Hour power reserve. Delivered in a prestigious wooden box with an additional NATO strap. Limited edition 200 pieces.
