LIMITED EDITION

GT TOUR CARBON X IDEC SPORT 2021

1960-1990: it was during these years that so many legendary car races took place, forging the very essence of the GT Tour collection. As the race is about to start, the driver glances at the R.P.M. counter...the mind is iring on all cylinders as the racing cars growl throatily and the powerful odours of oil and fuel saturate the air. The GT Tour collection adopts the codes of the 'Classic' car race.Worn with an automobile leather-style perforated black leather strap, the timepiece is a tribute to the golden age of the car race.The skeleton edition is an even more radical version, as each timepiece is certified to have been on-board in the IDEC Sport car as part of the 2021 eiditon of the 24 Hours of Le Mans race. Limited edition of 24 pieces. Includes one-day VIP pass for the next 24 Hours of Le Mans edition (pre-race or race, excl. transportation and accommodation). The set contains a miniature model of the car.
