FIRST GEN CALIBER

LADY LONGBRIDGE

39MM CASE

The Longbridge collection traces the epic journey of an iconic miniature looking car. Between tradition and modernity, it conquered passionate about racing over several rallies including Monte-Carlo's in the 60s. Here, the Lady Longbridge from RESERVOIR watch takes inspiration from this little audacious' measurement instruments to seduce women, in a 39mm case with leather strap. Two precious stones, tourmaline and sapphire, symbolize the light indicators and full headlights of vintage counters. Powered by RESERVOIR's first generation caliber: a self-winding mechanical movement combining an exclusive patented 124-piece module on an ETA-2824, to bring to life the retrograde minute, jumping hour and a 37-hour power reserve. Delivered in a prestigious wooden box with an additional NATO strap.
